Important Safety Instructions

Preparation for Use

Safety Back-up System

Battery

Both the battery and the back-up battery must be installed. The back-up battery provides power for the clock when the main power is not provided.

Water and Weather

Do not use the operating panel under water. Water contains chemicals that can attack and weaken the plastic, metal and other components of the radio. Never try to use the unit when it appears to be wet.

Power Failure

If the power is turned off, the time will be reset to 00:00. If the time is not reset, the time will return to the time you set the time. Both the ALM 1 and ALM 2 will be set to 00:00.

Power-Cord Protection

- Do not use an extension cord with this radio. The extension cord may become hot and cause a fire or shock hazard.
- Do not plug the radio into an outlet that is used for a heating appliance or other appliance with a high current draw.
- Do not leave the radio in a location where it may be exposed to electrical damage.

Cleaning

- Do not use abrasive detergents or solvents when cleaning the radio. These detergents and solvents may damage the radio.
- Do not use a water sprayer or allow water to enter the radio. This may cause a fire or shock hazard.

- The radio should be cleaned with a soft, dry cloth. Never use a water sprayer or allow water to enter the radio. This may cause a fire or shock hazard.

Non-Use Periods

- When the radio is not needed for a long period of time, turn the power off and remove the batteries.

Care and Maintenance

Replacing the Back-Up Batteries / Power Failure

If the power is turned off, the time will be reset to 00:00. If the time is not reset, the time will return to the time you set the time. Both the ALM 1 and ALM 2 will be set to 00:00.

Clean the Cabinet

There are no serviceable parts inside this unit. To avoid the potential for electric shock and damage, do not attempt to open or repair the cabinet.

AC Outlet

There are no user serviceable parts inside this unit. To avoid the potential for electric shock and damage, do not attempt to open or repair the cabinet.

Limited 60-Day Warranty Information

This warranty is valid only in the United States of America and does not extend to owners of the product in other countries. This warranty does not cover products which are damaged by negligence or willful actions, misuse, or failure to follow the instructions in this manual.
