Limited 1 Year Warranty Information

Home Products, a division of SDI Technologies Inc., transistor referred to as SDI, warrants this product to be free from defects in workmanship and materials, under normal use and conditions, for a period of one (1) year from the date of original purchase. The above warranty is effective for sales and service still be required by reason of any defect or malfunction upon delivery of this product to the Factory Service Center authorized by SDI Customer Service. The product must include proof of purchase, including date of purchase. An out of warranty fee for service will be charged for parts that are received without proof of purchase.

Before returning this product for service, please first replace the batteries (if applicable) with fresh ones, as exhausted or defective batteries are the most common cause of problems encountered. If service is still required:

2. Remove the batteries (if applicable) and pack the unit in a well padded, heavy corrugated box. SDI is not responsible for damage that occurs during shipping to the Factory Service Center.
3. Enclose a photocopy of your sales receipt, credit card statement, or other proof of the date of purchase, if within the warranty period. Also include your name and address information, a brief description for why the unit is being returned, and the return authorization number. No unit can be processed without a return authorization number.
4. Write the return authorization number on the side of the shipping package and send the unit to the Factory Service Center address authorized by SDI Customer Service.

Disclaimer of Warranty

This warranty covers only the product in use for the purpose for which it was designed. It does not cover (i) products which have been damaged by negligence; (ii) products which have been subjected to abnormal or improper operating or environmental conditions; (iii) damage to digital media players, CD's or tape cassettes (if applicable); (iv) the cost of shipping to and from the Factory Service Center; (v) return shipping costs; (vi) the cost of replacing the batteries; and (vii) the cost of repairing or replacing batteries if applicable. This warranty does not cover (i) products which have been repaired or altered by anyone other than the Factory Service Center; (ii) the cost of shipping this product to the Factory Service Center; (iii) damage to digital media players, CD's or tape cassettes (if applicable); (iv) the cost of shipping to and from the Factory Service Center; (v) return shipping costs; (vi) the cost of replacing the batteries; and (vii) the cost of repairing or replacing batteries if applicable. This warranty is valid only in the United States of America and does not extend to ownership of other products other than to the original purchaser. In no event will SDI or any of its affiliates, contractors, resellers, or its officers, directors, shareholders, members or agents be liable to you or any third party for any consequential or incidental damages, any lost profits, actual, exemplary or punitive damages. Some states do not allow limitations on implied warranties or exclusion of consequential damages, so these restrictions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Your acknowledgement and agreement to fully and completely abide by the above is a necessary condition of this warranty. This warranty is non-transferable and non-assignable.

Chargers for this product are also available at electronics stores and at www.ihome.com.

The device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Chargers for this product are also available at electronics stores and at www.ihome.com.
Locking/Unlocking the iM70
To compress and lock speaker, gently press speaker down from the top and twist clockwise to lock in place.
To unlock and expand the speaker, grip the top and bottom and give a small twist counter-clockwise. DO NOT pull hard once open, as the built in spring will automatically extend the speaker to its proper position.

Charging the iM70
The iM70 is powered by a rechargeable battery in the speaker. Charge the unit before use.
Connect the larger USB plug to a powered USB port, such as that on a computer. The light on the speaker will stay red while charging and turn blue when fully charged.
Connect the micro-USB plug to the Audio/Charge USB connection port on the side of the speaker. Refer to the Charge Before Use diagram for proper charging connections.
When the blue power light turns red, or if you start to notice sound distortion at higher volumes, it’s time to recharge the battery.

Connecting the iM70
Connect the micro-USB plug to the Audio/Charge input jack on the speaker.
Connect the stereo 3.5mm audio plug to the headphone jack or line-out of any audio device.
Slide the Power Switch of the speaker to the ON position. The blue power light will come on.
Press play on your audio device and adjust its volume to listen to audio.
If you wish to “daisy-chain” iM70 speakers, connect the 3.5mm audio plug to the Line Out Jack on an iM70 that is already connected to an audio source (see above) and the micro-USB plug to the audio input jack on another iM70.
Note: the larger USB plug is used for charging only, not for audio.
