## POWERUV3 II 360° UV-C Sanitizer and Alarm Clock

Model: IUV3

### Quick Start Guide

QUESTIONS? visit [www.ihome.com](http://www.ihome.com)

#### TOP PANEL

#### BACK PANEL

#### BOTTOM PANEL

#### DISPLAY

#### PH Indicator

#### Low Back-Up Battery

#### USING THE SANITIZER

This superior quality UV-C LED light safely kills up to 99.9% of surface germs in under 3 minutes, without using harmful chemicals.

The UVU3 is safe to use on everyday essentials including eyeglasses, smartphones, cosmetics, toothbrushes, and more.

#### USING THE UV BRACKETS

Brackets are provided to ensure optimal spacing between your objects and the UV-C LEDs. Swing brackets to a perpendicular position to provide adequate space.

#### Maintenance + Caring For Your Device

- Place the unit on a level surface away from sources of direct sunlight or excessive heat.
- Remove the plastic protective film from the clock display.
- Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other protective material should be placed between it and the furniture.
- Should the casing of your device become soiled, you may wipe down with a moist cloth.
- Do not immerse the device in water or any cleaning solution.
- Do NOT use gasoline, benzene, thinner, harsh cleaners, etc. and/or in the unit while cleaning, as they may damage the product. NEVER use alcohol or other solvents.

#### SETTING UP

- Make sure the UVU3 is plugged into a working wall outlet not controlled by a light switch. Lift the lid of the unit and place items inside, making sure not to overlap items. Close the lid.
- Press and release the **Sanitize Button** → to begin a UV Sanitizing Cycle. A countdown timer will display the remaining cycle time. The sanitize indicator will appear on the display, and a beep will sound when the cycle is complete.
- To extend to the current cleaning cycle, press and release the **Sanitize Button** again. Each press adds 90 seconds to the cycle, with a maximum cleaning time of 900 seconds. When the cleaning cycle is over, 'End' will appear on the clock display for 2 seconds, and then the display will show the current time.

#### NOTES

- Follow a built-in safety switch that will shut off the UV sanitizing cycle if the lid is opened. Do not attempt to defeat the safety function and operate the unit with an open lid.
- If the lid is opened during the UV sanitizing cycle, the timer will pause. Closing the lid within 1 minute will resume the cycle.
- We recommend leaving the brackets in place while sanitizing your items if items are too large. The brackets may be removed in those cases we recommend flipping the items over and sanitizing a second time for optimal effect.
- To cancel a sanitizing cycle, press and hold the **Sanitize Button** for 2 seconds. The clock time will appear on the display.

#### CLOCK SETUP

**Step One: Connecting the Unit**  
Connect the included AC adapter to the DC Jack on the back of the unit and connect the other end to a working wall outlet not controlled by a light switch.

#### Step Two: Setting Your Clock

- Remove battery pull tab from the bottom of the unit.
- Press and hold the **Time Set Button** (on the back of the unit) for 2 seconds. The PM indicator will flash and a beep sounds. Release the **Time Set Button**.
- Press and hold the **or** **Buttons** to adjust the clock to the current time (hold for rapid setting). Make sure you set the correct AM/PM time. The PM indicator appears to the left of the display. (There is no AM indicator.)
- Press and release the **Time Set Button** to confirm the current time setting. The YEAR will flash on the display. Press the **or** **Buttons** to set the year.
- Press and release the **Time Set Button** to confirm the current month setting. The day will flash on the display. Press the **or** **Buttons** to set the day.
- Press and release the **Time Set Button** to confirm the current day setting. The month will flash on the display. Press the **or** **Buttons** to set the month.
- Press and release the **Time Set Button** to confirm the current time setting. The year will flash on the display. Press the **or** **Buttons** to set the year.
- Press and release the **Time Set Button** to confirm the current time setting. The month will flash on the display. Press the **or** **Buttons** to set the month.
- Press and release the **Time Set Button** to confirm the current time setting. The day will flash on the display. Press the **or** **Buttons** to set the day.
- Press and release the **Time Set Button** to confirm the current time setting. The month will flash on the display. Press the **or** **Buttons** to set the month.
- Press and release the **Time Set Button** to confirm the current time setting. The year will flash on the display. Press the **or** **Buttons** to set the year.

**Daylight Savings Time:** By default, the DST Switch is set Auto and will automatically adjust the clock in March/April/November.

**Tip: Press the Alarm Button** during clock setting to toggle between 12/24 hour display modes.

#### SETTING THE ALARM

- Press and hold the **Alarm Button** for 2 seconds until the display flashes. A beep sounds. Release the **Alarm Button**.
- Press the **or** **Buttons** to adjust the alarm time to the desired time (hold for rapid setting). Make sure you set the correct AM/PM alarm time. The PM indicator appears to the left of the display. (There is no AM indicator.)
- Press the **Alarm Button** to confirm the alarm time setting. The alarm schedule will flash 7 (every day), 5 (weekdays) or 2 (weekend only). Press the **or** **Buttons** to select an alarm schedule.
- Press the **Alarm Button** to confirm the alarm settings and exit alarm setting mode. 2 beeps will confirm alarm setting is complete. The alarm icon will remain on the display, to show the alarm is armed.

**To Preview:** Press and release the **Alarm Button** to view the current alarm time.

**Turning Alarm ON/OFF:** Press and release the **Alarm Button** twice within 5 seconds to toggle the alarm ON and OFF, indicated by the related white alarm indicator.

When the alarm sounds, press the **Alarm Button** to disable the alarm and reset it to come on at the same time the next day.

#### SNOOZE / DISPLAY DIMMER

**Snooze:** When the alarm is sounding, press the **ZZZ/Dimmer Button** to snooze for 9 minutes.

**Display:** Press the **ZZZ/Dimmer Button** (when alarm is NOT sounding) to adjust display brightness. (Dimmer can be dimmed during Snooze mode.)

#### PROGRAMMABLE SNOOZE

To adjust the snooze duration:  
1. Press and hold the **ZZZ/Dimmer Button**.  
2. Use the **or** **Buttons** to adjust the snooze duration from 1-29 minutes. Press the **ZZZ/Dimmer Button** again to confirm.

#### CHARGING DEVICES VIA USB

There is a USB charging port on the UVU3. To charge your device, connect a standard USB cable (not included) to the USB port on the unit, and plug the other end into the charging port on your device. Note: Unit must be plugged into a working outlet in order to charge devices.

#### Battery Back-Up

The unit comes with a CR-2450 back-up battery installed to provide continuous alarm operation and clock settings in the event of a temporary power failure. Remove the battery pull tab before use. When the battery icon on the clock display is flashing, it is time to replace the back-up battery. The battery compartment is located on the bottom of the unit. 1. Make sure the AC adapter is connected to your time and alarm settings during battery replacement.

- Use a Phillips screwdriver to open the battery compartment door.
- CR-2450 battery, checking that the side is facing you. Release compartment door. Do not overtighten.

#### RESET

If you are experiencing abnormal operation, try to reset the unit. You can do so by disconnecting the AC adapter and removing the backup battery from the compartment on bottom of the unit. Wait 2 minutes, then re-install the battery and re-connect the AC adapter.

#### WARNING

- Do not connect contacts a butanol/vision cell battery. Do not insert the battery. Chemical Burn Hazard! Cell battery is not the impact of direct sunlight or excessive heat. Remove the plastic protective film from the clock display.
- Protect your furniture when placing your unit on a natural wood and lacquered finish. A cloth or other protective material should be placed between it and the furniture.
- Should the casing of your device become soiled, you may wipe down with a moist cloth.
- Do not immerse the device in water or any cleaning solution.
- Do NOT use gasoline, benzene, thinner, harsh cleaners, etc. and/or in the unit while cleaning, as they may damage the product. NEVER use alcohol or other solvents.

#### IMPORTANT SAFETY INSTRUCTIONS

- Read and understand all instructions and keep them in a safe location for future reference.
- WARNING: DO NOT ATTEMPT TO OPERATE THIS DEVICE WITH THE LID OPEN. The device is designed to operate with the lid closed. The safety feature will shut off the power if the lid is opened.
- Always make sure you are alerted to the potential hazards indicated by the product safety warnings.
